FOR YOUR SAFETY

We take your safety very seriously which is why Jay-Be® products are designed and tested to meet rigorous international safety and quality standards.

However, this folding bed contains moving parts so please be aware of possible finger or hand entrapment when operating. This is not a toy and young children should be supervised when using the product.

Please ensure that the bed is always positioned on a level surface to ensure that it remains stable when in use.

DIGITAL PRODUCT PASSPORT

Through thoughtful development, the use of sustainable materials, and consideration for how the product can be repaired or recycled, we have designed this product to minimise our carbon footprint. Scan the QR code to learn more.

Folding bed

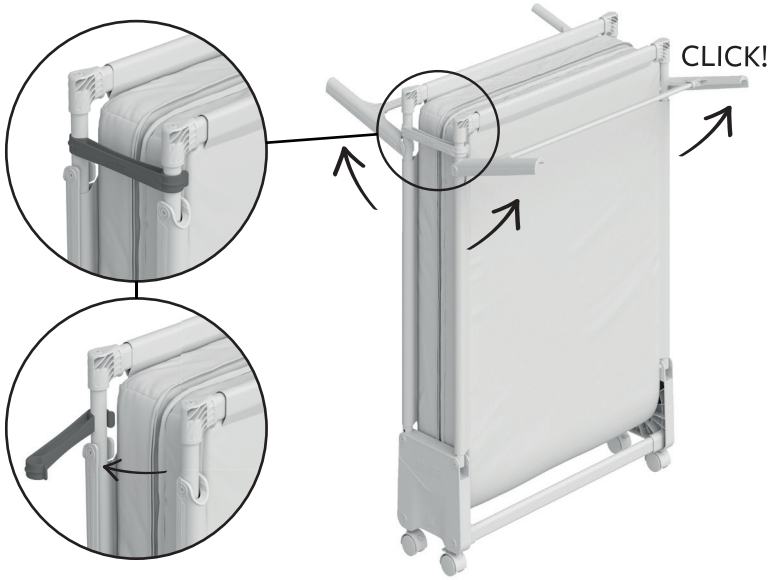

JAY-BE
Sleep Smart

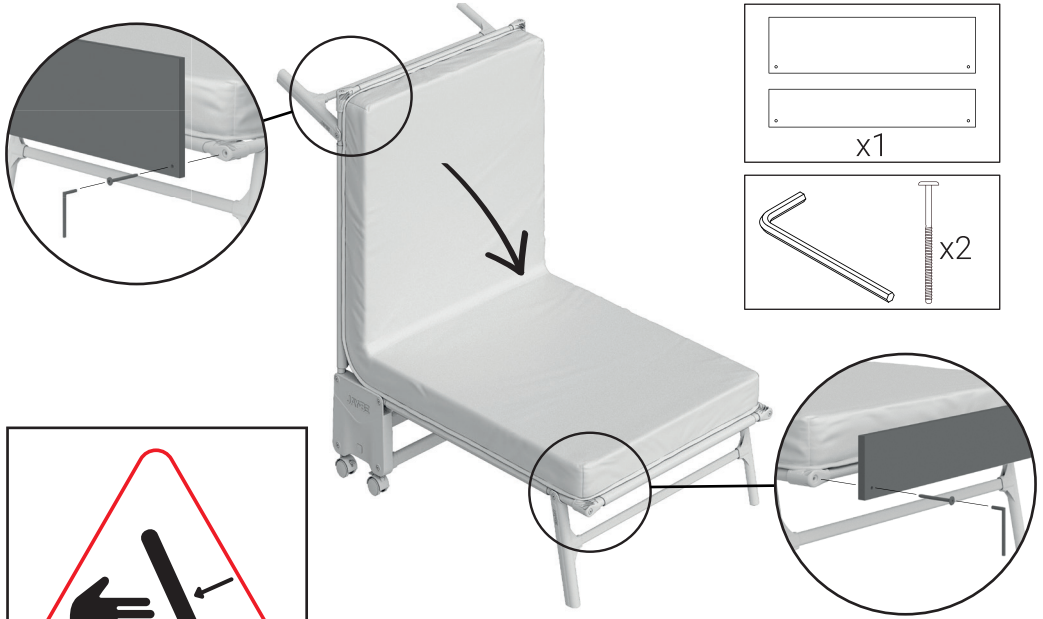

1 Screw in castors and tighten gently with the spanner provided.

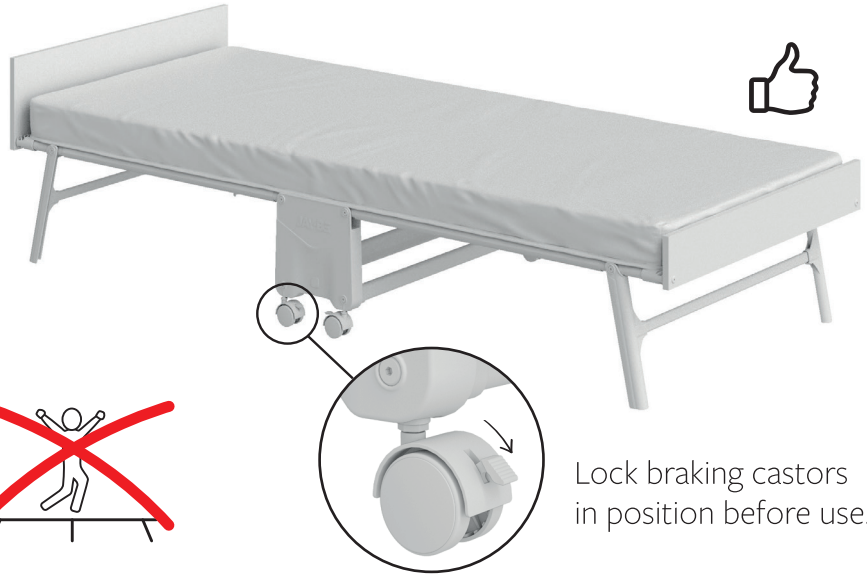

2 Open the legs and remove clips on each side to unfold the bed.

3 Unfold the bed and attach the headboard and footboard.

4 Please ensure both legs are fully extended and clicked in place before use.

Lock braking castors in position before use.

Take care when opening and closing your folding bed to avoid any entrapment.
